

David Aguilar, he/him/his

Class of 2025; physics & economics

Why Northwestern?

I wanted a new environment at a school with the ability to take courses in different fields and a large enough student body to meet people from a wide range of backgrounds. Northwestern provided exactly that and I am happy to be here.

Favorite Spot on Campus:

Lakefill

Come to me for:

- Choosing a major
- Economics and physics
- Nerves about meeting new people
- Study advice

Favorite Arch Memory?

I would have to say going to Chicago during the Posner program. We were given a day pass for the CTA from the program and we went to Chicago to walk around Millennium Park, the Magnificent Mile, the Art Institute, try out amazing food, and have great conversations. I still hang out and talk with many of the participants to this day.
